

## BRITISH ARE ONLY SEVEN MILES FROM ROULERS

### Alien Enemies Are Rounded Up

(International News Service.)

New York, Sept. 27.—Ninety-five suspects, all of them unaturalized Germans and most of them mechanics, are being held under lock and key at police headquarters today while police and secret service men completed their sensational round-up of alien enemies here.

(International News Service.)

New York, Sept. 27.—Following up their sensational raids last night when more than 200 alien enemies and members of the I. W. W. were taken into custody, federal agents and New York police today continued to round up "spotted" men in all parts of the city. It was stated authoritatively today that all of the men arrested will be interned for the duration of the war.

In their raids the authorities have obtained a mass of evidence showing the location of every plant in this section, as well as blue prints of machinery under construction for the government.

Included in those held in jail are members of the Home Defense League, workers in munition plants and I. W. W. members.

### Pan-Germans Launch Anti-Peace Campaign

(International News Service.)

Amsterdam, Sept. 27.—Hostile references were made to President Wilson's note to the Pope when the Reichstag convened on Wednesday, said a dispatch from Berlin today.

(International News Service.)

Washington, Sept. 27.—Germany's latest peace "trial balloon," the verbal offer to Pope Benedict to quit Belgium under certain trade and military guarantees, falls absolutely to interest the United States government, officials made it plain here today.

(International News Service.)

Amsterdam, Sept. 27.—Coincident with the convening of the German Reichstag, the Pan-German party has launched the most vigorous campaign in behalf of peace with annexations and indemnities that Germany has seen since the outbreak of the war. The Pan-Germans are receiving the support of the nationalists and liberals, but are meeting with powerful opposition from social democrats and centrists.

### KING ALBERT AND POINCAIRE HAVE VERY CLOSE CALL

(International News Service.)

Amsterdam, Sept. 27.—King Albert of Belgium and President Poincaré of France, had a narrow escape from death while on a visit to the Verdun front in France last week, it became known here today.

No details were given.

### Tropical Storm is Sweeping Onward To New Orleans

(International News Service.)

New Orleans, Sept. 27.—The tropical storm on the Gulf is believed headed towards New Orleans. However, the main force of the storm will strike west of this place, it is believed. Reports south indicate that much damage has been done along the coast of Central America. Communication with the cities in that section is broken.

\*\*\*\*\*  
A LETTER FROM HOME  
FOR A PENNY A DAY.  
The soldier boys at the front or in the camp will appreciate a letter from home every day—a newsy letter with all the local happenings. The easiest way, the most effective way, to send them one is to have the Albany-Decatur Daily sent to their address. The Daily, by mail, is but \$3.00 a year. This is less than a cent a day for a daily letter. It is cheaper than second class postage.  
\*\*\*\*\*

### PLAN QUIETUS TO NAVAL STRIKES

(International News Service.)

Washington, Sept. 27.—The two departments of the government whose activities in preparing for war have been most seriously hampered by labor troubles today moved to secure a definite settlement next month that will hold forth the period of the war.

On Oct. 2 the heads of the international unions whose men are employed at naval yards will meet with naval officials in Washington, Secretary Daniels announced today.

### French Eggs High, French Coal Cheap

(International News Service.)

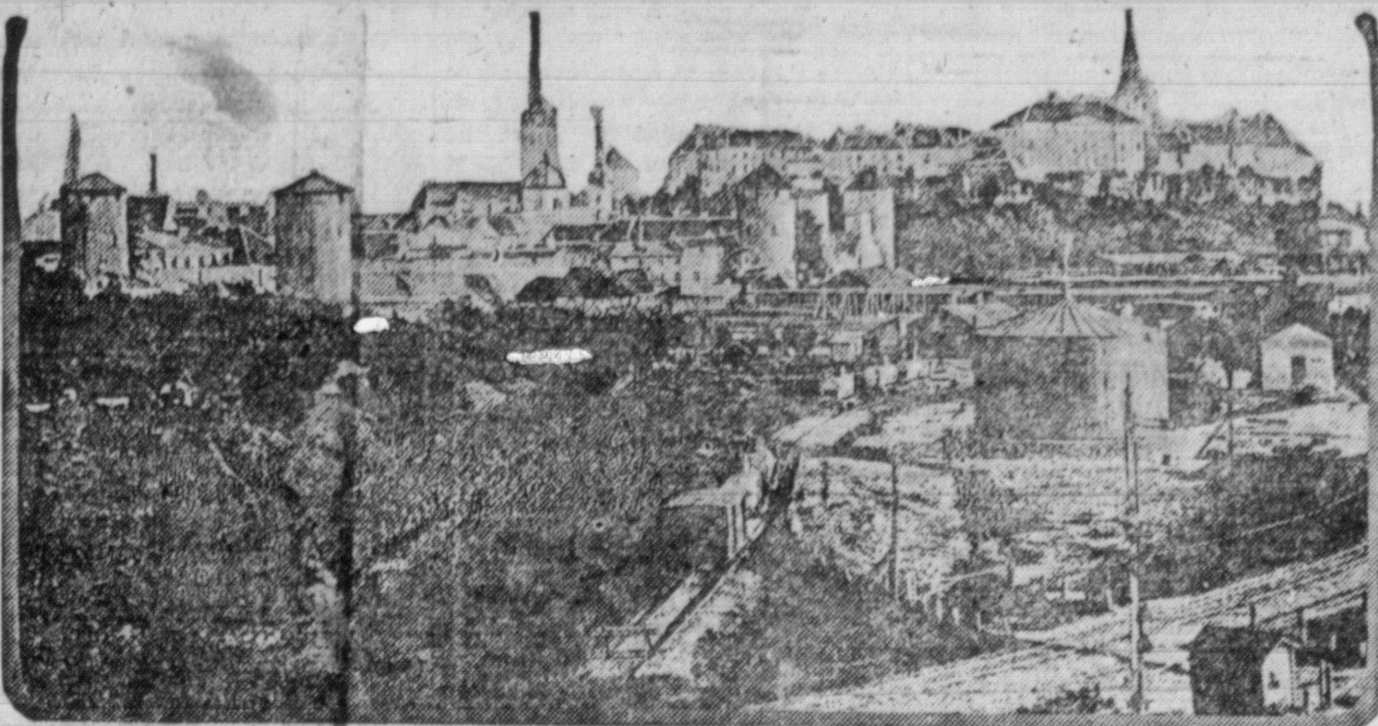

Montgomery, Ala., Sept. 27.—"Coal is powerfully cheap and eggs mighty high here," said Lieut. George A. McCarter, of the Seventeenth engineers, now on duty in France, in a letter to his sister here. He writes that coal sells for \$9 a ton and eggs 9 cents apiece "when you can get them."

### Home Made Liquor Causes Death At Gadsden, Three Ill

(International News Service.)

Gadsden, Sept. 27.—Billie Furnace is dead here, Herman, Dorothy and John Ciglar are dangerously ill and Herman Carlson is held on the technical charge of violating the prohibition laws. Furnace and the three children drank home-made liquor which it is claimed they obtained from Carlson. A coroner's inquest was held today but no verdict had been returned late this afternoon.

REVAL, THREATENED BY THE GERMAN FLEET

Reval, the Russian port which it is believed the German fleet will attack, is situated almost at the junction of the Gulf of Finland with the Baltic sea and is not strongly protected by fortifications. Its possession would be of considerable strategic value to the Germans.

### ARMY ENGINEERS IN FRANCE CALM AS BOMBS DROP

(International News Service.)

American Headquarters in France, Sept. 27.—German aviators have bombarded the barracks of American army engineers, but none of the men received a scratch. The attack was made at night and the men were suddenly aroused by the bursting of explosives. They hurried into the bomb-proof dug-outs and there calmly waited until the raiders made off. Flying at low altitude the invaders opened up with their machine guns and riddled the barracks buildings. The Americans showed no trace of nervousness.

The foregoing is the first report of a German attack against an American cantonment in France.

### Final Touches On Alien Slacker Bill

(International News Service.)

Washington, Sept. 27.—The finishing touches will be put on the so-called "alien slacker" bill by the house immigration committee today. The committee is expected to order the bill reported to the house today. Material changes from the form in which the bill passed the senate may be recommended, if Representative Burnett of Alabama succeeds in his fight.

### Heavy Rain Falling Over North Alabama

Expected That Downpour Will Cause the River to Rise Rapidly.

The hurricane that swept the Gulf coast picked up a vast volume of water which is being poured out over North Alabama today in the most torrential downpour of the year. Rain began falling early this morning and at 7 o'clock, when the daily reading is made by Mrs. I. H. Irons, weather observer, the precipitation was but .12 inch. From that hour until noon the rain had fallen almost without cessation, and indications are that the downpour may continue indefinitely.

The deluge is expected to start the river to rising within the next few days. The gauge at Decatur this morning registered 16 feet, 4 inches, and at that time the stream was stationary.

### Tom Rainey Buys Lund Residence

The residence formerly occupied by Mr. Brooks on Sherman street, and owned by Mrs. H. M. Lund, has been purchased by Tom Rainey, well-known Second avenue barber.

### Barbarous Hazing By West Pointers Exposed At Trial

(International News Service.)

West Point, N. Y., Sept. 27.—Stories of new and startling methods of punishment were brought out today in the trial of 12 upper classmen charged with hazing. Testimony showed that lower classmen were forced to strip to the waist, stand on tiptoe with chin in and head back until they fainted.

### Hosiery Mill Will Have Big Capacity

Twenty-One Hundred Pairs to Be Turned Out Daily.

When the Decatur Hosiery Mills are put into operation, the daily output of hose is expected to go a long way toward filling the great demand for this article of merchandise in this section.

Approximately one hundred girls will be worked as operatives in this plant, each girl handling four machines, and as the capacity per operative is twenty-one dozen pairs of hose daily, the mills will have a daily output of 2,100 pairs.

It is expected that the number of employees will be increased to 250 within six months after the opening of the mills, and with this force working to full capacity, the mill will turn out 5,250 dozen pairs of hose each day.

### Submarine Losses Are Smallest Ever

London, Sept. 27.—Thirteen British merchantmen of 1,600 tons and over and two vessels of less than 1,600 tons were sunk by mines or submarines last week, according to the weekly statement issued by the admiralty. In the aggregate this is the smallest number of vessels sunk during any one week since Germany began her intensified submarine warfare last February.

Two fishing vessels also were sunk last week.

### Roosevelt Roasts La Follette Again

(International News Service.)

Chicago, Sept. 27.—With the cheers of 12,000 patriotic Chicagoans ringing in his ears, Col. Roosevelt today prepared to carry his gospel of loyal, ardent Americanism into the territory of Senator La Follette, whose war attitude he so scathingly denounced in an address here.

"We can't send La Follette out between the firing lines," Roosevelt declared, "but I wish we could give him to the Kaiser for use in the Reichstag. In the senate of the United States he is a cause of shame and humiliation to every loyal American."

### WET ROADS WILL PREVENT BOOSTER TRIP TO HARTSELLE

T. A. Bowles, chairman of the automobile committee, announced this afternoon that the trip to Hartselle has been called off on account of the condition of the roads due to the torrential rains of today.

J. Pluvius has not bent a very indulgent and kindly grin upon the Albany Boosters' efforts to take the Morgan County Fair at Hartselle by storm as was planned for tomorrow.

Although the efforts of the automobile committee to secure a large number of cars for this trip have proved highly satisfactory, J. Pluvius turned on the weeps in a most aggravating manner early this morning, and now it is doubtful if the trip will be undertaken, according to Chairman T. A. Bowles of the automobile committee this morning.

Should Sol lend his co-operation to the venture by throwing his kindly and refulgent rays into the balance at the psychological moment, and stay on the job long enough to absorb the miniature rivers that are coursing hither and yon over the Morgan county highway, the Boosters will leave Albany in force tomorrow afternoon at 1 o'clock. However, as yet no definite decision has been made as the condition of the weather and roads will decide the issue of this expedition.

### Only One Soldier Who Failed Report Unaccounted For

William Brown, of Albany, and William M. Larrimore, of Lake View, Ga., draft soldiers, have reported to the local exemption board, thus leaving unaccounted for only one man—Ivey P. Weaver—who failed to answer roll call on Sept. 21. Mr. Brown reported to the local office Monday, while Mr. Larrimore got into telephonic communication with Secretary Draper from Chattanooga yesterday, stating that his notice failed to reach him on time.

As Morgan's forty per cent quota has already been filled, Larrimore and Brown can't be sent away for some time yet, but will be held in reserve until another contingent is dispatched to Camp Pike. Since the above men have reported three men now, find themselves in the popular predicament of not being able to report to the training camp, as Arthur Widner's case is still hanging in the balance, inasmuch as no official notification has been received by the local board from the Houston, Texas, office yet.

ATTENTION, HOME GUARDS!  
You are hereby given notice that tonight will be drill night. Your presence is requested.  
B. L. MALONE, Major.  
By R. T. SHEPPARD, Adj.

### 2,000 PRISONERS TAKEN IN DRIVE BY HAIG'S MEN

Victory in West Flanders, One of Most Important of War

### WARSHIPS AIDED IN THE ATTACK

Extremists Are In Control at Petrograd, Kerensky's Whereabouts Unknown

(International News Service.)

London, Sept. 27.—The desperate battle which began at dawn yesterday on the West Flanders front raged all night, and today these important results had been obtained by the British: 1—The British line has been advanced one-half of a mile to one mile over a front six miles wide, east of Ypres. 2—The newly won ground is being consolidated. 3—About 2,000 German prisoners have been captured. 4—The fortified village of Zonnebeke is now in the hands of the British. 5—The German front has been beaten back until it is now only 7 miles from the great German base of Roulers where German headquarters on the West Flanders front are maintained. 6—Important high ground commanding the Flanders plain is now menaced by Field Marshal Haig's army.

During the night German warships hovered off the Belgian coast and threw shells into German military works near Ostend.

(International News Service.)

Washington, Sept. 27.—Italian troops have completed the occupation of the Bainizza plateau and it is now firmly in Italian hands, according to official dispatches from Rome today.

(International News Service.)

London, Sept. 27.—Four powerful German counter attacks launched on a wide front in West Flanders all failed to wrest from the British any of the ground gained yesterday east of Ypres, the British war office announced today. The Germans suffered severe losses.

### PERU NOW THREATENS BREAK WITH GERMANY.

Lima, Peru, Sept. 27.—The government has instructed the Peruvian minister at Berlin to present to the German government a demand that satisfaction be given within eight days for the sinking of the Peruvian bark Lorton. If the demand is not met, diplomatic relations will be broken off.

The Lorton was sunk inside Spanish waters last February by a German submarine. Peru declared the sinking to be unjustifiable and insisted on payment of an indemnity by Germany. The German government offered to submit the case to a prize court.

### RADICALS WIN FIRST ROUND AT PETROGRAD.

Copenhagen, Sept. 27.—A bitter struggle for control of the Russian cabinet is being waged at Petrograd between the Bolsheviks group (extremists) and the conservatives, said a dispatch from the Russian capital today.

The radicals have won the first round, but have not yet obtained a decisive victory. Dispatches received up to noon failed to say whether or not Kerensky had returned to Petrograd.

### Quakers Strike When Called On to Drill

(International News Service.)

Louisville, Sept. 27.—Declaring that they will "submit to imprisonment or even death," before they will fight, Mennonites and Quakers among the selected men at Camp Zachary Taylor today refused to do military drill duty. Camp officials and leaders of the protesting Mennonites and Quakers have each forwarded an appeal to Secretary Baker.

### British Steamer Sunk By U-boat

(International News Service.)

An Atlantic Port, Sept. 27.—A steamer arriving here today reported that the British steamer Wentworth from an Atlantic port to a French port had been sunk by a submarine on Sept. 8, and all on board were lost.

### RIGOVEN PLAYS FOR MORE TIME

ARGENTINE PRESIDENT ASKS FOR DELAY IN GERMAN BREAK.

(International News Service.)

Buenos Aires, Sept. 27.—Reports were current today that President Rigoven would send a message to congress counseling delay in the proposed rupture with Germany. It was rumored that the president wants to wait until the translation of certain telegrams sent from here by the Swedish legation are received from Washington before vetoing or approving the congressional resolution in favor of a break with Germany.

Serious disorders have occurred in the capital during the past 24 hours as the result of anti-German agitation in the strike situation. One person was killed and several wounded.

### Season Opens Tonight At Masonic Theatre

Richard Buhler in "Believe Me Xantippe," the Initial Attraction.  
The "big show" season will open tonight at the Masonic theatre when Richard Buhler appears in "Believe Me Xantippe," the New York success. Mr. Buhler comes here direct from the Vendome theatre, at Nashville, where he played Monday, Tuesday and Wednesday of this week, and goes from here to the Jefferson theatre at Birmingham for Friday and Saturday, after which he swings around to Memphis.

Manager Cagle of the Masonic, was fortunate in securing such a high class attraction as the curtain raiser for the 1917-18 season, and despite the inclement weather indications are that the house will be packed tonight. The Buhler production is to be followed by a long line of meritorious shows, and the signs are fair for a successful year.

### GERMAN ATTACK FRENCH, BUT ASSAULTS REPULED.

(International News Service.)

Paris, Sept. 27.—Falling in their efforts to recapture lost ground on the Verdun front, the Germans swung their assaults to the Alsine river. Two attacks during the night were repulsed, the war office announced.

## GERMANY'S READINESS TO EVACUATE BELGIUM.

In a supplementary note to the Vatican—a sort of old maid's postscript, saying much more than the formal missive to which it was attached—Germany has at last consented to the evacuation of Belgium. Press reports, necessarily meagre, state that the foreign secretary has advised the Pontiff that the Hohenzollerns would be willing to restore the plundered nation its independence provided "Belgium would give a guarantee that any such menace as that which threatened Germany in 1914 would in future be excluded." Just what this alleged "menace" was can only be guessed at, but it is safe to say that Germany is again attempting to cast the odium of the war upon a helpless little nation that was never guilty of any more serious offense than attempting to observe a strict neutrality.

This altruistic concession by the imperial government after more than three years of rapine and murder and pillage is only worthy of consideration as an evidence of German weakness. A nation that deliberately murdered Edith Cavell, that maimed the aged, laid waste the land and took thousands into captivity and slavery could not be suspected of any good deed. All its actions now are based on a frenzied desire for self-preservation. Poor Belgium, which never paid allegiance to the Kaiser and which has never yielded a foot of territory to his legions except under compulsion, is the pawn that is to be staked as the price of peace. Such a bargain!

The Teutons need not deceive themselves. The war will never end until Belgium has been freed by the force of arms and has been abundantly compensated for its sufferings and its injuries, until Alsace and Lorraine have been returned to France and until the whole world has been made safe for democracy. There is but one "menace" and that is German militarism and German ambition. These cancers must be burned out by the fires of war.

Field Marshal Haig and his gallant troops, soon to be re-inforced by millions of Americans, will see that Belgium is evacuated. After the evacuation they will drive on to Berlin to name the terms of peace.

## A TOBACCO FUND FOR MORGAN COUNTY "BOYS."

"A woman is only a woman, but a good cigar is a smoke."

The foregoing line from the ramblings of that versatile bard, Rud Kipling, is not presented here as a fling at the fair sex. It is rather given as an illustration of the veneration in which mere man holds his best friend, his greatest solace and, his readiest companion—the weed. That a smoke and a woman should have been coupled in the same sentence is the best possible proof that the stern masculine looks with unusual favor upon a bit of tobacco, in whatever form.

This prelude is to call attention to the necessity that now exists for raising a fund with which to purchase tobacco for the soldier boys who so recently were called from civilian life to fight the battles of their country. These men, in the quiet of the camp, following the arduous duties of the day, find in the aromatic fragrance of their cigars a surcease from loneliness. As the rings curl upward, the

boys think of their loved ones back home and their minds travel to familiar firesides where of yore they were wont to spend a pleasant evening. How much more the smokers will be enjoyed if the tobacco comes from "back home," the gift of friends who do not forget and who do not begrudge.

For the present the federal government is not supplying the army with tobacco. Eventually, it is almost certain that this need will be met. Until then, a tobacco fund would be a mighty nice thing to have around. Will Morgan county do its part?

## SAVE THE ROUGHAGE THIS YEAR.

This fall all the rough feeds should be saved more carefully than ever before. The cornstalks, the peavines, the straw, the rough hays—all should be saved and utilized. Rough feeds will not altogether take the place of grain feeds, but they will reduce the amount of grain necessary to be fed, even to growing and productive animals, and they will make very little grain indeed necessary for mature and non-productive animals—the idle stock, dry cows, and feeding cattle that are not expected to gain in weight during the winter. Especially should all the legume hays and straws be looked after with much care. They furnish protein in cheap and digestible form, and on most farms protein is the element most lacking in the farm animals' rations—Southern Agriculturist.

## ALBANY'S WAR LIBRARY

COMMITTEE MEETING TONIGHT  
Every member of the general and key committees of the war library fund are urgently requested to be present at 7:30 o'clock tonight at the Y. M. C. A. We must work heroically if we succeed, and we must succeed in raising the \$200, the quota assigned us by the war department.

What are you doing? is the question propounded to all of the patriotic people of Albany, and especially to every member of the committees. See below what others are doing: Demopolis raised yesterday \$146. Her quota was \$100. Albertsville's quota was \$100. Her first day's collection was \$109.40. Gadsden raised its full quota of \$500 and nearly \$100 over. Let all patriots do their duty. Albany must do as well as the best.

SAMUEL BLACKWELL,  
Chairman.

## To the Patrons of Decatur Public School

On account of the prevalence of a number of diphtheria cases in Albany and the report of one case appearing in the school here, I have instructed the school board to have every child who has had diphtheria during this epidemic to furnish his or her teacher with a certificate from their physician, stating that the child's throat does not contain any diphtheria bacilli, before re-entering school.

This examination of the throat must be made after the child has recovered from the disease. The importance of this is due to the fact that the administration of anti-toxin ventilates the poison in the blood, but will not kill the germ in the throat, and a child may recover from the disease and still carry the live organism in his throat to other children.

W. C. BAILEY, M. D.,  
City Health Officer, Decatur.

## CARD OF THANKS.

We wish to express our sincere thanks for the many expressions of kindness, sympathy and love in the recent illness and loss of our beloved wife, daughter and sister.

JOSEPH WEATHERLY,  
MR. and MRS. W. L. HICKS  
AND FAMILY.

## New Treatment For Malaria Better Than Quinine and Calomel

No longer is it necessary to take head-splitting doses of bitter quinine sulphate, or drastic doses of nauseous calomel for your chills, fever or malaria.

Quinotone, the wonderful new treatment, will do the work much easier, quicker and better.

Quinotone is a complete tonic treatment for all forms of malaria. It is composed of six vegetable ingredients in scientific combination with Pepsin and Iron, and contains, in mild form, certain laxative elements which made 333 Liver Tonic such a splendid medicine.

Quinotone tones up the body, enriches and purifies the blood, builds up the appetite and restores health, strength and energy to a high degree. People suffering from a general run-down condition will find it a most helpful and effective tonic. It is pleasant to take and may be used by man, woman or child.

You can buy genuine Quinotone in big 50-cent packages at Dillehay Brothers or other good drug stores. (Adv.)

## Women in the War

By G. Kay Spencer  
(International News Service.)

One of the bitterest contests chronicled during the Great War has for its setting that bleak region surrounding Gornitchevo and Kaymakohalan, in the Serbian campaigns to defend the little country from the Teuton octopus.

In the Serbian ranks were many heroic women who dressed like the men and fought as unselfishly. But we are to tell about a little woman—a Scot—who exiled herself from her native hills of old Scotland to march over hard frozen ground powdered with wind-driven snow on the hills of Serbia.

Her claim to fame would very probably have never been differentiated from that of many an other woman trudging in the Serbian ranks had she not been cast by fate into a military hospital maintained by the British on that front.

In the early winter that saw the beginning of the drives which pushed the Bulgars-Germans back to the mountain known as Hill No. 1212, this little Scotchwoman was carted to the base hospital with her whole right side, from the shoulder to the knee, a mass of torn flesh and shattered bone.

Miss Flora Sands—for that is the name of this intrepid Scotchwoman—began working in Serbia as a Red Cross nurse early in the war. Her sympathy became so aroused by the sufferings and heroism of the people that, when the hospital units were broken up during the great retreat of October and November, 1915, she solicited and obtained permission to enlist as a private soldier in the rear guard that protected the retreating army.

Before that army reached the Adriatic she had won promotion. Become Sergeant Sands, she stood high in the regard of both officers and men of the crack regiment to which she still belongs. On the Macedonian front she went through the whole of the arduous and successful campaign

that began on September 12. It was in the decisive assaults on the highest crest of Hill No. 1212 that Miss Sands' active career was suddenly cut short. How this happened let her relate in her own words:

"We had been crouching in our shallow pits for hours, waiting impatiently for the order to attack. At 7 o'clock in the morning the order came. It was snowing and the snow lay on the ground. I was out of my pit in half a second, and running as fast as my legs would move. I am always the first to leave cover. It is my duty as a non-commissioned officer. But, unfortunately, I am not so nimble as most of my men. So it happens that I am generally among the last to reach an enemy trench. Well, I had nearly reached the brink of the Bulgarian trench in which our men were already at grips with the defenders. I was one of a small group of laggards—perhaps half a dozen—when a well aimed grenade fell in our midst. A couple of men besides myself were in the radius of its explosion and fell wounded, but I seem to have got most of the scatter."

So this Amazon tells her story. Simple it is and self-denying, for a number of her brother officers have stories to tell of the engagement which considerably elaborate upon her terse recital.

In the military hospital of Camp No. 41 she was the only patient of her sex. The camp had accommodations for sixteen hundred sick or wounded, and there is a heavy percentage of women among the Serbian armies.

A few days after her admittance into the hospital a royal aide-de-camp came to her bedside and, on behalf of the Prince Regent of Serbia, pinned to her breast, with much ceremony, the gold and silver cross of Kara-George—a rare badge that is given only for conspicuous bravery on the field of battle.

## Who's Who in the World's Series

By Jack Veiock  
(International News Service.)

CLAUDE P. WILLIAMS  
White Sox Pitcher.

Claude Williams, who, with Red Russell and Lefty Danforth, composes the off-hand trio of the White Sox pitching corps, has seen service in seven leagues, and, like a good many left-handers, he had to spend several years prepping in the minors before he was able to control a baseball well enough to stick in the big show.

Williams has been a big winner for the American League champions this season, for he has worked in more games than any other Sox pitcher, with the exception of Ed Cicotte, and when the season comes to an end his average will be close to the .600 mark.

Williams is not a big pitcher, like Benton or Roney, but he has a world of stuff and a good fast ball. He has been taken out of many games this season because of wildness, which has been his main trouble ever since he started playing professionally, but his wildness is not chronic, and when he is going right he is one of the hardest pitchers in the American League to beat.

He started playing professional ball with the Springfield club in the Kansas-Missouri League in 1911, and the

Nashville in the Southern League, following year, he got a trial with Wildness kept him from making good with the Vols and he was shipped to Morristown, in the Appalachian League, where he won eighteen out of twenty-nine games.

Brooklyn gave him a trial in 1913, but as Nashville still had a string to him, he was returned to that club, and finished the season with eighteen victories and twelve defeats. Detroit scouts thought so well of Williams that Hughie Jennings gave him a trial in the Fall of 1913, and again in the Spring of 1914, but once again he was sent back for more seasoning, this time to the Sacramento club of the Coast League, where he lost a big majority of his games.

The following year, as a member of the Salt Lake club, Williams turned in thirty-three victories and was beaten but twelve times. This record got him a berth with the White Sox and last season he won thirteen games for Rowland's pennant chasers.

Williams was born in Springfield, Mo. He lacks two inches of being a six-footer and weighs 170 pounds.

Cure chills and fever with Quinotone. 25-54

## AMUSEMENTS

NEICES AND NEPHEWS OF UNCLE SAM AT MASONIC FRIDAY NIGHT.

"The Joyville Limited," a show with special scenery, showing a regular railroad station, is the bill at the Masonic theatre Friday night. New Costumes and specialties, etc. If you want to have a good laugh see Johnny Mattise as the Joyville Limited conductor. It is one of the best shows of the entire week and one that you will enjoy from start to finish.

Look for Quinotone in your druggist's window. 25-54

## The More He Ate The Worse He Got

WOULD ALSO GET OUT OF BREATH WAS THE PECULIAR CONDITION OF DAVIDSON COUNTY FARMER.

"If a farmer ever was in a bad fix, I was," says Mr. Claude M. Marshall, farmer of South Nashville.

"At best," said Mr. Marshall, "the work on the farm is very hard and the hours are long, especially at this time of year. Not only does the man who works on the farm have to have plenty to eat, but he has to have plenty of wind to hold out."

"I had plenty to eat, but the more I ate the worse I got; I would soon get 'winded'—in other words, out of breath. A farmer can't hold up long at that. He has to have something to keep him up and he must stay 'kept up.' If his grub and his 'wind' go back on him he is in a bad way. And that is just the fix I was in. I could eat, and eat and eat and eat. But the more I ate the worse it was for me. I would no more than get started at my work until I would run out of breath. I knew there must be something that would help me get over that condition."

"I had been reading in the newspaper about Vin Hepatica, the Universal System Purifier and Tonic, and I went and got a bottle. Before it was half gone I was better. I have taken two bottles and can now do my work with ease and pleasure. Can eat anything I want and I don't get 'winded' any more. I am going right on until I take the entire six bottles to make good and sure of being entirely cured."

There are thousands just in the same fix that Mr. Marshall was in. What they need is a complete, yet gentle, cleaning out of their system. They need Vin Hepatica, the Universal System Purifier, which is made from eight of the best herbal remedies known to medical science, for cleaning out the system, toning it up, making the liver to work right, ridding them of constipation, indigestion, nervousness and shortness of breath which is caused, in most instances, by indigestion.

Thompson's Drug Store, Albany, Ala. (Advt.)

## Steel Plant Tied Up; Trainmen Out

(International News Service.) Gary, Ind., Sept. 27.—A strike of 2,000 engineers, firemen and switchmen completely tied up the Elgin, Joliet & Eastern railroads and paralyzed the immense mills of the U. S. Steel Corporation here today. The making of steel has been stopped and thousands of workmen are idle.

**Mother.** Most of all the other beautiful things in life come by twos and threes, by dozens and hundreds—plenty of roses, stars, sunsets, rainbows, brothers and sisters, aunts and cousins, but only one mother in all the wide world.—Kate Douglas Wiggin.

**Strong One Way.** Wife—My husband is not well. I'm afraid he'll give out. Wife's Mother—Well, he may give out. He certainly never gives in.

The highest liberty is harmony with the highest laws.—Giles.

Take Quinotone and feel better. 25-5t

## "I Should Worry Now About Corns!"

**They Peel Off With "Gets-It."** Two corns are no worse than one, and one is nothing at all—when you use "Gets-It," the one real corn-shrinker, corn loosener, peel-it-right-off corn-remover. That's because

One Corn Plus "Gets-It" Equals One Foot, Corn Free. Cause two drops of "Gets-It" causes your corn-pains at once, and you know that that old corn has been "nipped in the bud." "Gets-It" makes cutting and digging at a corn and fussing with bandages, salves or anything else entirely unnecessary. Remember "Gets-It" is safe.

You'll not have to take off your shoe or pumps under the table at the cafe to ease your squirming soul. See that you get "Gets-It." Don't be insulted by imitations. 25c is all you need pay at any drug store for "Gets-It," or it will be sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Albany and recommended as the world's best corn remedy by Prentiss-Dillehay Drug Co., and S. M. Thompson.

## Soldier Boy Writes of Life As Lived at Camp Pike, Ark.

Garnett Pless Says That He Likes It, and That W. A. Hill Is "Tickled to Death"

An interesting letter, written in a personal vein, has been received by C. L. Saunders of the American Telephone Company, from Garnett R. Pless, now at Camp Pike, Ark. Mr. Pless was a member of the second contingent that entrained on Sept. 21 for the camp.

The letter states that the men are well pleased with their new life. It follows:

Battery "C," 334th Field Artillery, Camp Pike, Ark., Sept. 24, 1917. Dear Friend Saunders:—You will please excuse this pencil and writing, for you will remember that I am a soldier and will probably be using charcoal before I get out of this. We have no desks of any kind to write on and we are forced to use our suit cases for a desk.

Well, Saunders, old scout, I believe I am going to like this life fine. We, of course, have never gotten straightened out just right yet. We landed here Saturday morning at 3 o'clock; went to bed near 5 and got up at 6. So you can readily see we were all in Saturday, and we took a shot (typhoid inoculation) Saturday night and it made most all of us sick all day yesterday, but today we have all been feeling fine and we drilled

about three hours in all. We are under quarantine and will be for ten days. We can't even go to the commissary, just 30 yards away from the barracks, if we want a Coca-Cola. We have to send someone for it. The grub, of course, is not very enticing, but I could stand that part of it. K. If I did not have to wash my mess kit after meals.

Speaking of army life though, Old Hill and myself are having a regular "circus" watching some of the other rookies. I heard one man say last night that he never stayed away from home over three days in his life until he came here. So you can imagine the look on his face.

Old Hill is tickled to death with the army. He says that he would not go back now if he had a chance. We will probably be here in this battery for a month and then we may be separated. The captain told us tonight that we will be placed where we will be best fitted for the service, and I am going to ask for the signal corps. We have that privilege.

The lights go out at 9 o'clock, and it's 8:20 now, so will close for this time. Regards to all the boys, also to all the girls there in the office.

Your friend,  
PLESS.

## ALBANY, ALABAMA.

Setting a Good Example for the Towns of Alabama to Follow—After Business and Going to Get It.

(Alabama Courier.)

The Courier takes pride in pointing to the other towns of Alabama the example set them by the action of the Board of Commerce of the city of Albany, formerly New Decatur. The Courier calls the attention of the people of this county who are readers of his paper to the page advertisement found in this issue and which will be found for the next several issues of the City of Albany, setting forth its many and varied advantages, opportunities offered the people of this county to trade at the trading center of this valley.

Any town that is willing to go out and tell the world in flaming letters the advantages offered by the city as a trade center and as a place to come and invest their cash, will be sure to succeed. This advertisement carries the business card of more than forty interests of that growing city where the best merchandise and manufactures are to be found.

The men behind this movement are live wires. They have something to boast of and without any frills, they are telling a simple story that is a mild boast, and they will reap richer harvests from this system than they will ever be able to tell, for the dozen newspapers carrying this page advertisement in the Tennessee Valley will reach every nook and corner of the valley and there will be none but who will hear of this most wonderful young city and they will turn their eyes "Albanyward" frequently, and many will go there to see what the youngest city in the South has accomplished.

Any community that is blessed with the live business men that Albany is and who are wise enough to display to the world their riches by telling them in thunder tones of the advantages they have to offer and the bargains they have to give, will reap a rich harvest in more than they have sown.

We wish we could speak individually of each of these men who are telling the world the advantages they have to offer you, but this is not possible, but we can say to you that Albany is the youngest and the most promising trade center in Alabama. A young giant that is striding to the coal of importance and power and guided by the most successful business men in northern Alabama, the city is sure to take high rank as a trading center and also as a residence city.

Read what Albany offers. When you have time, go and see for yourself, and be convinced the story told is a true one.

Quinotone will put the "pep" back in your step. 25-5t

Putting it off today won't get it done tomorrow. An advertisement in this paper today will bring business tomorrow.

## PERSONALS (Continued from page 3)

J. W. Hicks, of Brookfield, Mo., the son of Mr. and Mrs. W. I. Hicks, answered the hurry call to the death bed and funeral of Mrs. Joseph Weatherly, which took place yesterday. Mr. Hicks was unable to bring his family on account of illness.

Lieut. Cooper Adams, of the 19th field artillery, will leave for his command on Saturday at Fort Sam Houston, San Antonio, Texas.

James Webster, of Decatur, is spending a few days with his parents at Huntsville, before going to Atlanta to enter the aeronautical school.

Lieutenant Virgil Bell, following a visit to friends here, has reported to his regiment at Eagle Pass, Texas.

Roy Sewell, manager of the Albany office of the Western Union, has been promoted to the management of the Hattiesburg, Miss., office, at an increased salary, leaving for that place today.

## Four Are Wounded At Lexington, Ky.

(International News Service.) Lexington, Ky., Sept. 27.—Four men are in the hospital here today as the result of an outbreak between soldiers and civilians. Two soldiers were seriously stabbed during the fighting, while two civilians were injured.

## TO DISCUSS THE STRIKE. (International News Service.)

Chicago, Sept. 27.—Representatives of the Lake Carriers' Association and the Lake Seamen's Union left Chicago today for Washington to meet the government shipping board to discuss steps to prevent the strike of 10,000 Great Lakes seamen on Oct. 1.

Delicate stomachs don't dread Quinotone. 25-5t

## Warning!

To the shoe buyers who are now having chills over the thought of advanced prices in Shoes. We know your thoughts are:

## "WHAT WILL WE DO TO SHOE THEM ALL?"

We know also that many are going out looking for something cheaper. Don't worry—not yet. You will be able to locate them alright, for someone will have shoes that look cheaper than others. They always had them and they will still have them. Save your worrying for later. It will be time for it when you have tried them out.

Good shoes can be had of us. Not only of us, but others will have them, but they will cost you more money. Cheap shoes will be found in abundance. If it makes no difference with you, drop in anywhere. If you are particular, drop in at CHANDLER'S.

Announcing the arrival of our complete stocks, we are now ready for your every need. There is no saving in delay.

## Chandler's

WE are exclusive agents for the Royal Tailors and have on display their beautiful line of Woolens.

The Royal Tailors have NOT advanced their prices since the war begun, which means we save you from 15 to 25 per cent on your suit

## MAKE ONE BATCH OF DOUGH DO FOR TWO BAKINGS

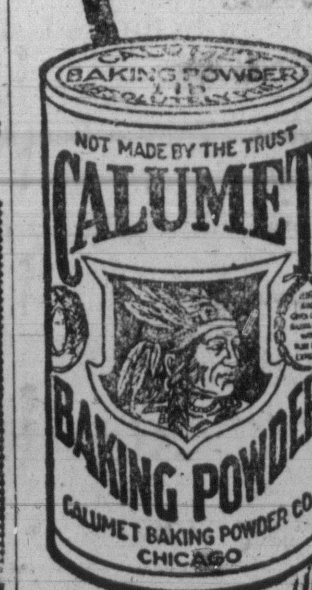

Make up a batch of dough with Calumet Baking Powder. Use part of it in a baking for your evening meal. Put the balance of dough in the ice box—for breakfast biscuits. Fine, flaky, tempting biscuits that fairly "pop" with goodness. You'll find this a great help. And one that can be found only in

## CALUMET BAKING POWDER

The reason is this—the complete leavening action of Calumet never begins until the baking is put into the oven—until it is exposed to oven heat. There is no loss of strength in the can or in the dough. While you are saving minutes with Calumet you are saving money and materials too.

You Save when you buy it—You Save when you use it. It is reasonable in price. It is certain in results. It stops bake-day failures. It is by far the most economical baking powder you can buy or use. Sold under a guarantee of Money-Back-If-You-Are-Not-Satisfied.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.
